

Wednesday 6<sup>th</sup> January 2021

Hello all,

Here is your home learning plan for today! Thank you all so much for your hard work yesterday. I loved seeing all the videos and photos! There was some fantastic maths work going on and some brilliant descriptions of the seasons. Well done all of you and thank you parents for making this happen!

I hope you enjoy today's learning.

Mrs Cole

You got this

Maths  
(15-20  
minutes)

Today we are exploring the different ways to make the numbers 4 and 5. Click on the picture below to play today's video. See Session 4.

#MathsEveryoneCan

Collect some objects to show 4 and 5.  
Can you sort your objects into groups or sets?  
Here I have made a set of fours and a set of fives.

How many different ways can you show each number?  
Can you match the numerals to each set?

White Rose Maths

The complex block contains a video thumbnail with a white background and a blue border. At the top, it says "#MathsEveryoneCan" with a cartoon character. Below that, it asks the viewer to collect objects to show 4 and 5, and to sort them into groups or sets. Two photographs are shown: the first shows 4 apples, 4 wrapped candies, and 5 red berries, with a blue card with the number 5; the second shows 4 bananas, 4 pinecones, and 4 blue buttons, with a white card with the number 4. Below the photos, it asks how many different ways the viewer can show each number and if they can match the numerals to each set. The "White Rose Maths" logo is in the bottom right corner.

Have a look around your home to see what you can use. Don't forget to send us a photo or video!

Handwriting  
(15 minutes)

Handwriting does not have to be practiced with a pencil, pen and paper. There are alternatives you can use such as flour, sand, mud, sticks, oats, brush and water.

Can you practice the letter **a**?

Write the letter, words and a sentence. Make sure you are making your tall letters tall, your long letters long and you are trying to keep your letters the right size. If your child struggles to form letters, practice writing in the air and carpet and show them how to write it first.

Try writing:

a

apple

ant

and

An ant and an apple.

This video might help (click on the photo for the link):

Phonics

(25 minutes)

Sing along with Mr Mc and learn the names and sounds of the alphabet!

Join Mr Mc for our phonics lesson today. You will be learning a whole new sound which is 'oo'.

oo

The caption action is "oo oo zoom to the moon". Crouch down with hands above head with fingertips touching, then jump into the air like a rocket.

Don't forget to practice your sounds from the key skills pack!

Topic  
(Seasons  
and  
weather)

(20 minutes)

Remember yesterday we thought about what you need to wear on a winter's day, today try and get outside and see how many of these winter things you can find! What other things can you see? You could make a list or send us a video telling us about what you found.

### Winter Hunt List

Extension: Find out what an evergreen tree is, and can you find what a bare tree is called?

Parent hint:

## Deciduous Trees

A **deciduous** tree loses its leaves each year.

## Evergreen Trees

An **evergreen** tree keeps its green leaves all year round.
